WILL TAKE ACTION.

It is likely that the Democratic State Central Committee will shortly take cognizance of the two sets of candidates nominated in this district by the double convention, and appoint a board of election. It has been the practice of the committee in such circumstances to order a primary to elect a settlement of such matters. Undoubtedly this would be the most satisfactory course to pursue at the present juncture.

Many Democrats would consider an assumption of authority on the committee's part to declare the nominees directly. A candidate would hardly wish to receive a nomination for a judicial office from a State Committee, unless compelled to do so.

A settlement by such procedure would indeed be the reverse of Democratic doctrine, and would set a dangerous precedent. It would result in making the State Committee the court of final resort in all like disputes. In such an event, candidates nominated with a strong pull in the committee might be too glad of a dispute which would make a settlement necessary before the committee, whose members would constitute a friendly and prejudiced, and more ready informed court.

If the State Central Committee should in the present instance initiate the practice of declaring the nominee, that act would be liable to the charge of usurping the power to elect. It would be a violation of the people's hands and to lodge that power in the committee itself. As a matter of fact, it is difficult to see how that body has any more to do with the declaring of, or making of such nominations (which amount to about the same thing), than it has to do with regulating the procession of the equinoxes.

A plan involving a precedent, the consequences of which must be so serious, will hardly be adopted by the committee. It is much more likely that the disputed nominations will be submitted to the people to be voted on in a primary, a course indicated by wisdom and established usage—Democratic doctrine.

A Michigan man who has a well-developed conscience has come to the front. He doesn't give his real name, and this prevents it from being handed down to posterity by hundreds of willing hands. Several years ago, according to his own statement, he "went to pass" on the railroad from Vandalia to Shelbyville, Ky., and now makes restitution by sending a money order for \$1.00 to the railroad agent at the former place. He gives as a reason that he had suffered great anguish on account of the act, and wouldn't know any peace until he had paid his fare on that occasion. He thought the beginning of the new year a proper time to make his conscience clear. All over this fair land to day, and in every part of it, there are hundreds of subscribers to weekly papers who have "beat" the publishers of the same out of honest labor and hard-earned dollars. If the consciences of this class of people could only be quickened as was that of the Michigan man who happens would be brought to thousands of homes of country newspaper people.—Georgetown Times.

The toy pistol, a popular instrument during the holiday season, contributed its full share to the destruction of human life. Boys were the principal victims. In Louisville several deaths occurred from lockjaw or blood poisoning, the result of wounds received in consequence of these "play things." Deaths from similar cause are reported from other localities. As a consequence the toy pistol is coming under popular disapprobation, and the newspapers are discussing the necessity of prohibiting their sale and use. A bill in this direction is now pending in the Virginia Legislature.

Geo. White shot and killed his brother-in-law, James Winchester, near M. H. Springs, about daylight Monday morning. White's conduct is inexplicable except on the ground of insanity or absolute depravity. It is believed that he was laboring under a fit of temporary insanity, as there is insanity in his family. Deputy Sheriff Haydon arrested him and lodged him in jail Monday afternoon. White married Winchester's sister Christmas week. There are two men in the Wayne county jail now under charge of murder, the other being Will Abbott, charged with the murder of Grace Frewitt, near Shiloh last summer. J. H. Carter.

M. & F. HIGH SCHOOL ENROLLMENT SINCE CHRISTMAS.

The enrollment at the M. & F. High School has already reached high water mark, and still they continue to come. Prof. Baker & Flowers have shown their capacity to build up a school of which they and the community ought to be proud. The people of the town who have not already shown their appreciation of their efforts, should do so by entering their children at once. Below, we give a partial list of those who have already enrolled since Christmas from a distance:

Joe E. Flowers, Blinn.
Miss Brockman, Russell Springs.
Charles Coffey, Pellyton.
Lucy Coffey, Pellyton.
Cora Reynolds, Vester.
Pearl Breeding, Vester.
Annie Kinard, Red Lick.
Bertha Hamilton, Nell.
Zola Kinard, Red Lick.
John Walker, Grayville.
Annie Conner, Columbia.
Thos. B. Harvey, Fair Play.
Wallace Beard, Case Valley.
Ella Dobney, Case Valley.
Ira Dobney, Case Valley.
Woodruff Flowers, Blinn.
Edna Mitchell, Greensburg.
Charlie Mitchell, Greensburg.
Ira Simpson, Breeding.
Mont Sharp, Amanda ville.
Charles Sharp, Amanda ville.
Della Harmon, Dunlap.
Hattie Bradshaw, Russell Springs.
L. Y. Gabbert, Roley.
F. G. Gabbert, Roley.
T. A. Humble, Russell Springs.
Clarence Wade, Watson.
Lee Taylor, Camp Knox.
Noah White, Eunice.
Ida Willis, Absher.
Irene Yates, Grayville.
James Caldwell, Grayville.
Maudie Squires, Pym.
Hallie Rodgers, Greensburg.

HOW IS THIS?

"Both reason and experience show that there is but one way to maintain peace between different forms of money, and that is by exchanging one for the other at the will of the holder. But when the test shall come, if any doubt exists whether the secretary of the treasury will follow reason and experience, a panic will be precipitated as in 1893."—Secretary Shaw.

As in 1893? What does that mean? Was it the trouble in the treasury, the scarcity of funds and the doubt as to what course the secretary would take—that was what caused the panic of 1893? But, then, becomes of the venerable constitution, which is so often seen in republican forms, that the tariff of 1894, by some mischievous force, brought on a panic a year before it was born? Did Secretary Shaw intend to rob the organs of one of the chiefest weapons in their arsenal? Does he not understand that the tariff of 1894 reached back about a year and brought on a panic which "cost the country more than our great war in the early sixties?" There is a secretary who came more for the truth than for the exigencies of his party's organs? It would seem so; and the Post congratulates him for his independence. Nevertheless, we expect to see that exploded fiction repeated and put on the road again in 1904.—Washington Post.

Have you ever used Dr. Cassie's Cough Syrup in your family or for yourself? If you have not, don't judge by other cough syrups that you have used, for there is no comparison. Dr. Cassie's Cough Syrup cures by relieving the lungs of inflammation. It never dries up or stops the cough without removing the cause. Sold by M. Craven.

The Heslar has already made its appearance in Southern Indiana and Northern Kentucky, and is working havoc with wheat crops that section. The last issue of the Wazlaw (Ky.) Independent says: Many of the wheat fields in this section are effected with the Heslar fly and the prospect is that some of the fields will be entirely destroyed. There is only one way to remove the Heslar from absolute destruction and that is to pasture the growing plant as close as possible which either destroys the fly hidden in the stalk or exposes it to the cold weather which destroys the insect in its embryonic state. Farmers with fields effected should act promptly. All of the very early wheat is now ravaged by the insect.

As an antiseptic, preventing the possibility of blood poisoning, as in his bare scratch or rusty nail, there is nothing equals Dr. Cassie's German Penetrating Liniment. Sold by M. Craven.

BEGINNING OF THE END.

J. PROCTOR KNOTT.

Frankfort, Jan. 12, 1903.—Henry Yontee, one of the convicted assassins of Governor Goebel, was before the Franklin grand jury several hours last Saturday, and is reported, will again be examined to-day. Of course the secrets of the grand jury room are closely guarded—for Judge Carroll has a somewhat summary manner of stopping grand jury leaks by slapping the locker in jail—but beyond doubt, the statement made by the convict was a most sensational one, and fastens the nose around several necks. Commonwealth's Attorney Franklin is jubilant.

In a general way, it can be said that Yontee lays bare the secrets of a conspiracy to assassinate reaching from among the highest officials of the State, down to the actual murderer who pulled the trigger. Many of those accused have left the state, verifying their guilt by their absence. Jim Howard is declared to have fired the fatal shot.

This is about as far as is at present considered healthy to attempt to peer into the secrets of the grand jury room, and if Judge Carroll believed that even this much was told by a grand juror, both that individual and myself would be given ample opportunity to inspect the interior of the Franklin county jail.

The general opinion is that Yontee's confession, if anything like so specific and complete as rumored, marks the beginning of the end of the story of the foulest assassination staining the history of the State. Now that the entering wedge is fairly driven home, the accused will not much longer stand together. There will be scurrying for cover, and a multiplicity of State's evidence, if the Commonwealth's Attorney so desires. "When thieves fall out, honest men get their dues."

How much more does this apply to the case of the assassin? The coward who hides himself and slays his victim will not allow his own precious neck to be broken so long as he can save it by breaking somebody else's neck. If none of the murderers of William Goebel, harriding the unavoidable delays of justice, are hanged before first falls upon the winner of 1893-4, then they will be hanged. For there is evidence in plenty; now—more than ever before—and there is more to follow. And if Jim Howard and Caleb Powers are not regretting that they have been given new trials it is because they do not know the substance of Yontee's confession.

But the real assassin of William Goebel—the brains that instigated that bloody deed and urged it relentlessly forward to its tragic culmination—will never be known until the very bottom is dug down to, and the parties who suggested the special train that bore the murderers to Frankfort are uncovered. Not even Jim Howard is as guilty as those fiends who, sitting back in darkness, pushed forward their weak tools and dupes to do their horrible work.—J. M. R. in Glasgow Times.

THE ELDER BOOTH.

An old retired actor and manager in Baltimore had been ill for some time, and as he was held in high esteem, his friends arranged for him a complimentary testimonial at the Holiday Street theater, Julius Bruns (the older) Booth was at that time manager of the theater and, unsolicited, tended a benefit at his establishment to the same gentleman. Both himself acted and of course the house was crowded.

After the performance he went to the box office, collected the entire receipts and late at night took them to the home of the beneficiary and spreading the money out upon the table, said to him, "This is your share."

"But will you not deduct the expenses?" asked his old friend.
"The only expense incurred," said Booth, "has been the bringing of the money to you, but as I walked the cost is merely shoe leather, and I will not charge for that." So saying he turned on his heel and left the room before he could be thanked.

WITHIN A STONE'S THROW OF THE

Knots, many years ago, was first nominated for Congress, in which body he became famous—famous as a great constitutional lawyer; famous, too, as one who would make them laugh and bring out the happy side of their nature—he lives in a beautiful, new, modern home on Market street, Lebanon, Ky.

Since his return home from Danville he had determined to reside in town, even before the burning of his beautiful country home. The "Rigs" just beyond the city limits.

This dwelling, which he will doubtless make his home for the remainder of his life, was purposely constructed for him, and after plans drawn from his suggestion.

The Governor's health seems to be much improved at the age of seventy-three—since he has settled again in his native town, and among the people with whom he has so long lived, and he is always a home to his friends who number all who know him.

The writer called a few days since to pay his respects, and was cordially received by the Governor, who was in splendid spirits. In the house nothing has been omitted that would contribute to the convenience, comfort and elegance of the establishment. Arrangement of the library has not been completed. Many of the Governor's books, paintings, rare and curious specimens of bric-a-brac, were scattered and buried in their rescue from the burning of Lea Rigs and it has cost a good deal more labor upon the Governor who personally superintends the classification and arranging, to be able to set things to rights.

The Governor passes the greater portion of each day in his study. In answer to the questions, "What is your favorite reading?" he simply answered, "Oh, my old library; my old library!"

Many of the volumes there are old friends to him, and he delicately refused to draw the lines against one in favor of another. Each one, perhaps, was equally delightful to him in the line of thought pursued. He lives over his life with his old books, and while he keeps up with such current literature as can claim his attention, his pride and pleasure, it seems, are in his old standard authors.

The daily papers, of course, are not neglected. He will never cease to feel an interest in the political welfare of the State and country, and in current events.

As a staunch Democrat as when he modeled public opinion in this district and helped mold it in the State and nation, he is as great a favorite in this county with Republicans as with Democrats.

A portion of the time each day, if the weather be not too inclement, he spends "down town" on the streets about his old haunts in Court Square in the stores or banks, where there are always some friends ready to gather around him, have a shake of the hand and bring him a story or an anecdote.

The whole country knows his reputation as a story-teller too well for a voice from Lebanon to add to it. He has caused a smile to spread across the continent too often for that.

It has been recorded of Emerson that the villagers of Concord were greatly attached to him, and it was a common sight about the town to see a group of the taught around him, listening to and holding converse with him. Even so it is here with Mr. Knott. Who in his private station as a citizen of Lebanon draws around him the "taught and untaught," who hold him now in still higher esteem than when political power begot jealousy and envy and political passion created antagonisms.—Louisville Times.

Stomach troubles, pain in the limbs and joints, loss of appetite, dull, drowsy feeling, is caused by inactive kidneys. These organs must be in a healthy condition or such complaints as these will form. Gray's is used as directed will regulate the kidneys to healthy action when these ailments will disappear. HE KISSED HIS MOTHER.

Sum up all there is in the world, and among it all can be found nothing that speaks better for a boy than the kiss he gives his mother.

A Chicago Judge is somewhat of this opinion. He judged two boys less from the evidence given by witnesses than from the evidence presented by themselves in their treatment of their mothers in court.

One boy, whom the Judge decided must go to a reformatory, tenderly kissed his mother good-bye, sinking his own misfortune in sympathy with the sorrow of his mother. The Judge looked on, and instantly decided that there was enough good in that boy to enable him and his mother to work out his salvation.

At the same moment, another boy, whom the same Judge had announced would probably go free, glanced nervously at his mother, who sat weeping and started to walk out. That boy will go to the reformatory.

This Judge has only applied common sense in interpretation of the law. Perhaps few Judges take the trouble to do it. But it is worth while.

The boy against whom the evidence seemed conclusive, but in his extremity thought first of his mother's sorrow, and sought first in him. In sending him back home with that mother the Judge sent him to the best reformatory in the world.

It was no chance, his. People do not do things by chance as to crucial moments. It was there that all the elements in one's character become stimulated to the highest tension and the resultant act indicates the real character.

Such a boy may yield to temptations. Bad companionship may lead him into trouble. But so long as the love of mother remains his strongest emotion there must be hope for his ultimate redemption.

OBITUARY.

God whose wisdom cannot err and in whose keeping we delight to abide, has seen fit to remove from our midst our esteemed friend and brother in Christ, Geo. W. Pickett, who died September 22, 1902. Bro. Pickett was born December 10, 1828, in Abernethy county, Va., and was 73 years, 9 months and 6 days old at his death. His parents removed to Adair county, Ky., when he was quite small, and here he lived until his death. He was married at the age of 22 years to Miss Emma Rodgers, to whom was born 13 children, 10 of whom are yet living, 6 boys and 4 girls. His first wife died when his youngest child was quite small, and he was again married to Miss Pauline Estes, who survives him.

In early life he was united with the M. E. Church, South, and remained a member till death. He was a member of Gradyville Lodge, F. A. M., of which he was Master a number of years. He was twice honored by the people of the county, once as sheriff and once as a member of the Legislature.

Bro. Pickett was a very obliging nature, and lost considerable money by going security for friends. He was a great sufferer, but all was done for him that loving hands could do, and he never failed to appreciate the efforts of his friends to ease his pain.

He was resigned to the will of God, expressing his willingness to die. In the death of Bro. Pickett the community loses a good neighbor, the children a loving father, the wife a cheerful, devoted husband. His mortal remains were laid to rest with Masonic honors in the Pickett Chapel cemetery after a sermon by Bro. T. L. Hulse, many friends and relatives being present to pay the last tribute of respect to the memory of a friend.

May God put his loving arms around the bereaved ones and sustain them and prepare them for a happy eternity.

FROM MR. BRYAN'S PAPER.

The New Year's resolution that is not already frayed about the edges is made of good material.

The indications are that the asset currency scheme is getting ready to step to the front and claim its vindication.

Very naturally Dr. Baerum is severely criticized by the educators who profit by Mr. Rockefeller's benefactions.

"Banks are the natural servants of commerce," said the president in his message. Will some one please tell the banks?

Arizona and New Mexico must suffer, it seems, because the republican party is in no immediate need of four more senators.

If all reports concerning the doings of Mr. Solway are true, he is earning that great salary by remaining away from the office.

The John L. Sullivan reform of the drink habit is keeping close company with the g. o. p. reform of the tariff robbery habit.

The Hague tribunal would enjoy a protracted period of usefulness were it not for the fact that Uncle Sam persists in taking it seriously.

The longer Speaker Henderson presides the more he is convinced that he is the victim of a huge joke disguised as an "Iwa idon."

It seems that Great Britain has more money to spend for rain show in India than she has to spend for food to feed starving Indians.

The Chicago Record-Herald declares that Chicago is the greatest railway center in the world. It is also the greatest stockyards center.

Mr. Secretary Shaw has made his private secretary an assistant secretary. Some men have been private secretaries into high place, but not all of them are grateful enough to make practical acknowledgment.

There is so much freight business that the railroads cannot handle it, therefore the railroads must raise freight rates in order to make expenses. This is the device kind of logic made familiar by republican orators when speaking of the tariff.

Probably Venezuela does not pay what she owes for the same reason that Wall street had to call on Mr. Secretary Shaw for help a short time ago.

LITTLE HELPS.

When poisoning eggs, put a teaspoon of vinegar in the boiling water. The egg will keep its shape better, and the whites will be more.

A cloth, wet in alcohol, will make washing windows in winter a satisfactory task. Alcohol will make your drying heavy.

Ordinary baking soda makes an excellent dentifrice, polishing the teeth and sweetening and purifying the breath.

An excellent polish for the nickel part of a stove or range is whitening, moistened with ammonia. When thoroughly clean, scrub out the dry whitening with a chamolite skin, or piece of soft cloth.

Boiling tea for twenty minutes, until a good portion of the tannin is extracted, and used hot, makes a good wash for salt rheum; it readily relieves the pain and itching.

Every woman should know something of the chemistry of the food she serves up to her family, its health-giving and its health-destroying qualities. Over-eating, and eating of unsuitable food.

WONDERFUL NERVE

Is displayed by many a man enduring pain of accidental cuts, wounds, bruises, burns, scalds, sore feet or stiff joints. But there is no need for it. The Bucklen's Arnica Salve will kill the pain and cure the trouble. It's the best salve on earth for Piles, too. 25c. at all druggists.

A Judge in a northwest Missouri county has decided whom the eggs produced on the farm belong to. A farmer attempted to take a basket of eggs to town to sell, but his wife objected. They had a fight, in which the old man came off victorious, and the eggs went to market. The wife was not satisfied, but had her lord arrested. The justice fined him \$3 and costs and told him that in the eyes of the court those eggs belonged to his wife, and that, therefore, he was no better than a thief when he took them and sold them without her consent.

A Marvelous Invention.

Wonders never cease. A machine has been invented that will cut, paste and hang wall paper. The field of invention and discovery seems to be unlimited. Notable among great discoveries is Dr. King's New Discovery for Consumption. It has done a world of good for weak lungs and saved many a life. Thousands have used it and conquered Grip, Bronchitis, Pneumonia and Consumption. Their verdict is: "It's the best and most reliable medicine for throat and lung troubles. Every 50c and \$1.00 bottle guaranteed by all druggists. Trial bottles free.

GLENSFORK.

We are having some very rough weather now, but not rough enough to interfere with our school which seems to be progressing nicely.

Mr. J. S. Chapman has removed to this place and we are delighted to have such nice people come in to our neighborhood, but sorry to say Mrs. Chapman is still in very bad health.

Mrs. C. A. Walker, Miss Eliza Calhoun and Miss Annie White visited Mrs. J. A. Chapman last Tuesday and reported a very enjoyable time.

Mrs. Elizabeth Helm, of this place, is visiting her daughter, Mrs. Eli Rabun, of Crawfordsburg, who has been very sick for the last few weeks.

Mr. Basil Chapman will accompany his sister, Mrs. Alice Crawford, to her home in Tennessee.

Miss Texas Page and Miss Ethel Taylor have returned home from a short visit to Stottsville and report a pleasant visit.

I understand Mr. T. Thomas and family are talking of going to Indiana. We would be sorry to lose such excellent neighbors.

Tried to Conceal It.

It's the old story of "murder will out" only in this case there's no murder. A woman feels run down, has headache or dyspepsia and thinks it's no honor and tries to hide it until she finally breaks down. Don't do it! Buy Dr. King's Electric Bitters at once. It has a reputation for curing Stomach, Liver and Kidney trouble and will revitalize your whole system. The worst forms of those maladies will quickly yield to a curative power of Electric Bitters. Only 50c, and guaranteed by all druggists.

DON'T SUCK.

If your neighbor is a prosperous let him prosper. Don't growl, grunt or grumble. Say a good word for him and let him go that. Don't be a kicker. You turn will come. No one is a whole show. If you see the town is moving along rapidly feel good about it. Help things along. Show a little push. Try to get some of the benefit yourself. Don't stand around like a chatty cadaver and waste your time feeling sore because some one has more success and success than you have. Do a little hustling yourself, and if you can say a good word for your town or its people. Say it like a Prince. If you are full of hate and disposed to say something mean, put a padlock on your mouth and keep it there till you can get a hypodermic injection of the milk of human kindness. Don't be a kicker. No man ever made a dollar kicking but a professional football player. No man ever got rich kicking everybody's business but his own. No man ever helped himself up permanently by kicking his neighbor down. Give others a kindly word and give it liberally and gracefully. It won't cost you a penny, and remember you may want a good word yourself some day. You may have thousands to-day, and to-morrow be without the price of a share. Don't be a kicker. If you don't pay, you can't afford it. There is nothing in it. If you want to throw something at somebody, throw cologne, and don't throw mud or brickbats. If you just must kick, go out behind the house and kick yourself, for if you feel that way you are the man that needs kicking. Whatever you do, don't allow yourself to become a chronic kicker. Don't even have an acute attack. Let everybody push together, and you'll all be better and happier and live longer. Don't be a kicker.

KELTNER.

The cold weather has made the people enjoy the inside.

Mr. Geo. R. Keltner, who has been visiting relatives and friends here took his leave for his home in Oklahoma last Thursday. He says old Kentucky isn't half as bad as he imagined it was. O. G. McMahon and family took their leave for Covington, Oklahoma, last Thursday, contemplating making it their future home.

D. B. Dowell is in Louisville selling tobacco.

E. B. Dohoney and O. B. Finn were at Nell a few days ago on business.

Uncle Marshall Coffey, one of our oldest citizens, went into a trance a few nights ago; says he heard music and saw some of his relatives.

T. G. Coffey is suffering with two broken ribs, caused by a horse falling on him.

Mr. Clud Rodgers is confined to his room with pulmonary trouble.

Mr. Chess Keltner sold a 144 hand mule to F. D. Moss for \$15.

Irvine Keltner and Hendrix Sullivan will remove in a few days to Greensburg and will live on Mr. Jeff Henry's farm.

Allen Keltner paid O. G. McMahon \$125 for a 10 hand mule.

STATE NEWS.

Mr. Arthur Peter, one of the old merchants of Louisville, died last week.

A. C. Bales, of Boyle county, committed suicide by cutting his throat from ear to ear.

Dogs got into the poultry yard of J. H. Neff, a produce dealer of Richmond, and killed 21 geese, valued at over \$200.

At Paducah, in a fight on the levee, Ship Green, Jr., aged fourteen, was fatally stabbed by Willie Roberts, of the same age.

In Louisville four boys have died and several others are seriously sick with lock-jaw, caused by wounds inflicted by toy pistols.

William Etheridge, who was shot by James Bush, near Hopkinsville, while attempting, it is alleged, to assault Mrs. Bush, died of his wounds.

Hon. W. G. Gosson was found dead in bed at his home near Glasgow. He formerly represented Warren county in the State Legislature.

Garr Collier, aged fourteen years, and Jennie McLean, aged sixteen, of Bath county, eloped to West Union, O., and were married. The bride wears short dresses and both were attending school.

A Clay county farmer traded a turkey valued at twenty cents for a quarter of beef valued at 6 cents per pound. The beef weighed 33 pounds and the turkey 26 pounds, making an even swap.

In Lewis county the four-year-old son of Mr. and Mrs. Taylor Ervin was playing by himself when he got hold of a broom and stuck it in the fire.

His clothes caught fire from the broom and he was burned to death.

Under the new Court of Appeals the secretaries or stenographers of the members of the court will not be permitted to take cases and practice before the court. This is the first time since the judges have by law been allowed secretaries that such instructions have been given.

At Covington the wife of Barton Stuebebeck was removed to the pest house while about to become a mother. She died shortly after the birth of her child and her relatives will sue the city for damages, claiming that the rough treatment she was subjected to and the dilapidated condition of the pest house caused her death.

The case of W. S. Taylor, Charles Finley, John Powers, W. H. Cullen and Green and Wharton Golden, charged with being in the Goebel murder conspiracy, were called for trial in the Franklin Circuit Court last week and continued on motion of the Commonwealth. Bench warrants were issued for Taylor, Finley and Powers.

A Burgh dispatch says: Theodore Robinson, of the Mayo neighborhood, who was stabbed five times by his twenty-year-old father, while the latter was drunk, is still alive and may recover. The old father is almost crazed with grief over the unfortunate matter, and should the boy die, there is fear that he would attempt suicide. This deed is a parallel of one alleged to have been committed by Tom Robinson, a brother, many years ago. Tom had a beautiful daughter. Her father returned from town one day while drunk, and in his frenzy attacked his daughter with a knife, stabbing her several times. She lay between life and death for quite a long time. Robinson grieved over the matter for some time, and finally hanged himself.

There is rarely a disarrangement and estrangement that is not aggravated by the story of what some gossip told that some constitutional falsifier said had been said by one of the parties to the controversy. The real issue is often lost sight of in the war of words which comes from the despicable source of the gossip. Those political newspapers whose stock in trade is vituperation and who are conscientious retailers of gossip and slander; those politicians who detail known campaign lies, have been the source of all Kentucky's disastrous political troubles. After having applied all the epithets and repeated as the truth all the falsehoods known to language and to Satan, they have some vituperation on the other side is reported by the gossips and slanders to have said in report. Do not people are becoming very tired of such papers and such would-be politicians.—Somerset Journal.
